UNIPATH CLASS SAMPLE · FICTIONAL · NOT A REAL STUDENT

# Portfolio: Mali, Grade 11

- Every Saturday I help run my family's dessert stall at the night market and test new recipes.
- I made a simple sheet to track which desserts sold best and set prices so that we still made a small profit.
- I filmed short cooking videos for our social media page, which helped us find new customers.
- At school I gave a presentation on reducing food waste, and our class started a compost bin.
- I want to learn how food businesses grow without losing what makes them special.
